Marathon Gold Corporation
Notes to the Condensed Interim Consolidated Financial Statements
For the three and nine months ended September 30, 2014 and 2013
(Unaudited - Expressed in Canadian dollars)

1) GOING CONCERN

The consolidated financial statements of Marathon Gold Corporation (Marathon", the "Company", "we" or "us") have been prepared in accordance with International Financial Reporting Standards applicable to a going concern, which assumes continuity of operations and realization of assets and settlement of liabilities in the normal course of business for the foreseeable future.

Marathon has no sources of revenue, has incurred losses amounting to \$9.0 million since its inception, and is dependent on financings to fund its operations. In addition, as Marathon is in the development stage, it is subject to the risks, uncertainties and challenges similar to other companies in a comparable stage of development. These include, but are not limited to, the continuation of losses in future periods; the ability to raise sufficient funds, and on acceptable commercial terms, to continue its exploration programs; the ability to establish the economic viability of mineral deposits on any of its mining properties; the acquisition of required permits to mine; and the attainment of profitable operations. These material uncertainties lend significant doubt over the applicability of the going concern assumption and ultimately the use of accounting principles pertinent to a going concern. These consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities, the reported expenses and balance sheet classifications that would be necessary if the going concern assumption were inappropriate. These adjustments could be material.

Marathon funded its operations in the period ended September 30, 2014 through the use of its existing cash reserves obtained through an equity financing completed on December 12, 2013 and from five private placements which closed during the first three quarters of 2014 and generated aggregate gross proceeds of \$6,542,132.

Marathon continues to seek additional financing opportunities in order to raise necessary funds for the advancement of its properties. However there can be no assurance that the Company will be successful in these efforts.

2) GENERAL INFORMATION

Marathon's primary business focus is the acquisition, exploration and development of precious and base metal prospects, including the further development of the Valentine Lake Project in the Province of Newfoundland and Labrador in eastern Canada, the Golden Chest project in Idaho, USA, and the Bonanza project in Oregon, USA.

Marathon was incorporated under the Canada Business Corporations Act on December 3, 2009. On December 3, 2010, Marathon's common shares commenced trading on the Toronto Stock Exchange under the symbol "MOZ".

Marathon's registered address is 357 Bay Street, Suite 800, Toronto, Ontario M5H 2T7.

Marathon Gold Corporation
Notes to the Condensed Interim Consolidated Financial Statements

(Unaudited - Expressed in Canadian dollars)

Marathon's operations and level of spending on its mining properties are impacted by seasonality, which at times limits the ability of the Company or its exploration partners to carry out drilling and other surface operations on its properties, and by the extent of Marathon's working capital.

3) BASIS OF PRESENTATION

These condensed interim consolidated financial statements have been prepared in accordance with IFRS as issued by the IASB applicable to the preparation of interim financial statements, including IAS34, *Interim Financial Reporting*. These condensed interim consolidated financial statements should be read in conjunction with the audited annual financial statements for the year ended December 31, 2013, which were prepared in accordance with IFRS as issued by the IASB.

These condensed interim consolidated financial statements were approved by the Board of Directors for issue on November 11, 2014.

4) ACCOUNTING POLICIES

The accounting policies followed in the preparation of these condensed interim consolidated financial statements are consistent with those followed in the previous financial year.

a) Valentine Lake gold property, Newfoundland

The Valentine Lake property is subject to two overlapping agreements, which cover the claims which comprise the Leprechaun Gold Deposit and the Victory Gold Deposit but not the entire Valentine Lake property.

Marathon Gold Corporation
Notes to the Condensed Interim Consolidated Financial Statements
For the three and nine months ended September 30, 2014 and 2013
(Unaudited - Expressed in Canadian dollars)

The Reid Newfoundland Company retains a 7.5% net profits interest (“NPI”). In addition, Xstrata Canada Corporation retains a 2% net smelter return royalty (“NSR”) on base metals and a 3% NSR on precious metals, which is reduced from 3% to 1.5% over the life of production until the earlier of the following:

- Cumulative production exceeding 250,000 ounces of gold, and
- An amount becoming payable under the terms of the Reid NPI.

Amounts payable in any period under the Xstrata NSR’s on precious and base metals are reduced by amounts payable in the same periods under the Reid NPI.

b) Golden Chest gold property, Idaho

At all times in the period from January 1, 2013 through May 22, 2013 Marathon held an undivided 50% interest in Golden Chest LLC (“GCLLC”), a company formed to hold a 100% interest in the Golden Chest gold property located near Kellogg, Idaho. Exploration activity at the Golden Chest property is carried out by New Jersey Mining Company (“NJMC”), the manager of the project.

Prior to May 22, 2013, Marathon and NJMC had each contributed to GCLLC, on a pro rata basis in line with their respective 50% interests, cash and other assets with fair values amounting to US \$4,922,000. On May 22, 2013, Marathon provided funding amounting to US \$50,000 to GCLLC pursuant to a cash call presented by NJMC, for which NJMC elected not to fund its proportionate share. The default by NJMC in funding the operations of GCLLC resulted in Marathon’s interest in GCLLC increasing to 50.50%, resulting in Marathon acquiring effective equity control of the project. Accordingly, Marathon began to consolidate the operating results, financial position and cash flows of GCLLC with effect from May 22, 2013.

The fair values of the net assets acquired were estimated by Marathon using a cost approach due to the nature of the net assets acquired. The estimated fair values of the assets and liabilities acquired are set out below.

	\$
Cash	32,056
Prepaid expenses	4,203

Mineral exploration and evaluation assets	10,178,921

The acquisition of the net assets of GCLLC was financed by:	
Marathon’s investment in GCLLC prior to May 22, 2013	5,070,820
Marathon’s investment in GCLLC May 22, 2013	51,470
Non-controlling interest	5,020,857
	<u>10,143,147</u>

Marathon Gold Corporation
Notes to the Condensed Interim Consolidated Financial Statements
For the three and nine months ended September 30, 2014 and 2013
(Unaudited - Expressed in Canadian dollars)

On several dates in the period from June 13, 2013 to July 3, 2013, Marathon provided funding amounting to US \$175,000 pursuant to cash calls issued by NJMC for which NJMC elected not to contribute its proportionate share. These defaults by NJMC resulted in Marathon's interest in GCLLC increasing to 52.22%. Marathon recognized a gain of \$85,023 from the resulting reduction of NJMC's non-controlling interest, which was charged to equity.

GCLLC is earning a 100% interest in certain patented mining claims which make up a portion of the Golden Chest property by making payments to the original vendor of the property against a non-interest bearing promissory note (the "Beasley Note"). GCLLC's remaining payment commitments with respect to the Beasley Note are outlined below.

Year ending December 31:	Amounts Due US \$
2014	125,000
2015	500,000
2016	500,000
2017	500,000
2018	125,000
	1,750,000

The Beasley Note is without recourse to GCLLC, NJMC, and Marathon. In the event that GCLLC were unable to continue to make the vendor payments stipulated by the note, it would forfeit its interests in these claims.

On September 3, 2013, GCLLC entered into an option agreement with Juniper Resources, a private mining company based in Idaho, pursuant to which Juniper had the right to lease a section of the Golden Chest property to mine for its own account over a period of up to three years. Under the terms of the agreement, Juniper made an initial payment of US \$50,000 to Marathon and NJMC in advance of conducting due diligence on the property and had the right to exercise its lease option on the property no later than November 30, 2013.

On November 26, 2013, Juniper exercised its option and paid Marathon and NJMC an advance royalty of US \$200,000. Under the terms of the option agreement, the following monies became payable at various points over the life of the agreement, for so long as Juniper conducts mining operations on the property:

- 1) an immediate advance royalty to Marathon and NJMC of US \$200,000, payable in proportion to the interest of each partner in GCLLC at the time the payment is made, which payment was made on November 27, 2013;
- 2) the payment of quarterly installments due on the Beasley Note, commencing December 15, 2013; and
- 3) the payment of a 2% NSR royalty.

Marathon Gold Corporation
Notes to the Condensed Interim Consolidated Financial Statements
For the three and nine months ended September 30, 2014 and 2013
(Unaudited - Expressed in Canadian dollars)

The two payments, which totaled \$264,550, were accounted for as reductions in the carrying value of the Golden Chest property.

During the period ended September 30, 2014, Juniper paid the installments due March 15, 2014, June 15, 2014 and September 15, 2014 on the Beasley Note.

c) Bonanza Mine gold property, Oregon

On December 16, 2011, Marathon purchased a 100% interest in the Bonanza Mine gold property, a past producing gold mine located in the Green Horn gold district of Oregon, USA. The Bonanza property at the time of this transaction consisted of 13 patented lode claims and one patented parcel covering a total of approximately 120 hectares.

On closing, Marathon paid the vendor US\$126,711 and 300,000 common shares with a fair value of \$345,000. In connection with this acquisition, the vendor retained timber rights to the patented claims for a period of 20 years and a 2% net smelter returns royalty. Marathon has the right to purchase 1% of the royalty by paying the vendor US \$1,000,000.

Concurrent with and subsequent to this property acquisition, Marathon staked additional unpatented claims around the Bonanza property. There are no royalties on the unpatented claims.

7) FINANCIAL INSTRUMENTS

Measurement categories

Marathon's financial assets and liabilities have been classified into categories that determine their basis of measurement and, for items measured at fair value, whether changes in fair value are recognized in the statement of income or comprehensive income. Those categories are: fair value through profit or loss; loans and receivables; available for sale assets; and, for liabilities, amortized cost. The following table shows the carrying values of assets and liabilities for each of these categories at September 30, 2014 and December 31, 2013.

	September 30	December 31
	2014	2013
	\$	\$
Fair value through profit and loss

Other financial liabilities		
Trade payables due within 12 months	(255,648)	(175,937)
	(255,648)	(175,937)

The carrying values of Marathon's cash, trade receivables, loans, and trade payables approximate fair value. The methods used to estimate the fair value of Marathon's investments in warrants and equity securities are detailed in note 6 to the financial statements.

Fair value hierarchy

The following table classifies financial assets and liabilities that are recognized on the balance sheet at fair value in a hierarchy that is based on significance of the inputs used in making the measurements. The levels in the hierarchy are:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 - Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices)
- Level 3 - Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

There were no transfers between levels 1, 2 or 3 during the period.

8) CAPITAL MANAGEMENT

Marathon is not subject to externally imposed capital requirements.

Marathon manages its capital structure and makes adjustments to it based on the funds available to support the acquisition, exploration and development of our mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management but rather relies on the expertise of management to sustain the future development of the business. Marathon's properties are in the exploration and evaluation stages, and as such the Company depends on external financing to fund its activities. In order to carry out its exploration and activities and pay for administrative costs, Marathon spends existing working capital and raises additional amounts as needed. Management continues to assess new properties and seeks to acquire interests in additional properties if there is sufficient geologic or economic potential and if Marathon has adequate financial resources to do so.

Under the terms of the Rambler Subscription, Rambler agreed irrevocably to subscribe for common shares of Marathon for gross proceeds of \$500,000, as follows:
 - a. 1,176,470 shares at a price of \$0.2125 per share, for gross proceeds of \$250,000 (the “First Tranche”), which closed on December 11, 2013, and

That number of common shares equal to \$250,000 (the “Second Tranche”) at a subscription price calculated as a 10% premium to the greater of the volume weighted average price (“VWAP”) for Marathon’s common shares for the 60 and 5 trading days ending on the date prior to Rambler giving notice of its intention to subscribe under the Second Tranche, with the closing of the Second Tranche to occur no later than April 30, 2014.

In addition, Marathon granted Rambler an option, exercisable in its sole discretion, to subscribe for additional shares amounting to gross proceeds of \$1,500,000 in four quarterly tranches, as follows:

Marathon has not attributed a value to this option.
